Volunteer Work

Paul Smiths Gabriels Volunteer

Fire Department

Fire Fighter

2015-2016

Pownal Valley Fire

Department

Fire Fighter

2013-2015

Nicole will be celebrating her one year anniversary with TCE in March. In her time here she has been able to experience many different aspects of surveying. She has been conducting basic boundary surveys, topographic surveys, and ALTA surveys, as well as construction layout.

Nicole has been able to take on multiple roles here at TCE throughout the past year. She has been able to set up traverses, conduct stakeouts, and be crew chief on multiple projects.

Nicole was born and raised in southern Vermont but made the move north shortly after graduating from Paul Smith's College. In her spare time she enjoys playing rugby and spending time with her friends.

Nicole is looking forward to another exciting year at TCE. She hopes it is full of interesting surveys and experiences.

Recent Project Experience

Severance Boundary Survey, Colchester, VT Nicole participated in the reconnaissance and set up of the 41.8 acre traverse. Her and her co-workers then ran the traverse together.

Rubman Boundary Survey, Colchester, VT Nicole was in charge of running the instrument for the 120 boundary traverse. Her and her coworkers spent two days working their way around the parcel.

Starr Farm Nursing Center, Burlington, VT Nicole was able to lead most of the fieldwork underneath Heath, who is one of TCE's survey project managers. She made the plans for locating the building and other features on the parcel, while also leading an intern through the process.

Additional Projects

- CVS ALTA/NSPS Survey
- H.B Flemming Pile Stakeout
- VTC Repaving Survey
- Shea Boundary Survey
- Redstone Pile Locations
- Doubletree ALTA/NSPS Survey

Key Skills

Team Player
Records Research
